

# Pollinator and Pheasant Habitat Field Day

Presented by the USDA and Pheasants Forever

Learn about the best techniques for establishing and maintaining your grassland habitat

*Anyone interested in prairie habitat is welcome to attend!  
Refreshments provided!*

## Topics covered:

- Establishing native species
- Converting existing cool season brome/fescue to native species
- Establishment maintenance, long-term maintenance and mid-contract management (MCM)
- What to expect from your seeding in year 1, 2, and 3
- Native Plant and Weed Identification
- Time for questions

## Time and Location

**Thursday, September 14, 2017 - 1:00-4:00 pm - 3154 75th St., Norway, IA**

Directions from Norway: Travel North on State HWY 201 for 2 miles, then head East on 75th St. for 1.5 miles. We will meet in the pasture on the South side of the road.

**RSVPs are preferred, but not required. To RSVP, call Emery Davis at (319)212-0916**
